Awaken Your Hunger

BT1™

SINGLE-STAGE ADJUSTABLE
DROP-IN TRIGGER

BRENTON™
PREMIUM HUNTING RIFLES

BT-1™

SINGLE-STAGE ADJUSTABLE DROP-IN TRIGGER

As hunters, we place a premium on feel and reliability—which is why we set out to create the single-stage, adjustable drop-in BT-1 trigger.

Discriminating hunters and target shooters define a premium trigger as smooth and crisp. The BT-1 satisfies the shooter with a smooth pulling and crisp breaking adjustable (3.0 lbs. to 6.5 lbs.) trigger.

The BT-1 hammer strike has sufficient power to ignite the tougher cup primers used by today's MSR ammo manufacturers. Every Brenton trigger is hand tuned and test fired (at our test bench) for optimal performance by one of our expert trigger technicians as the final quality check before it's ready.

System Features

- Single stage – traditional, simple and field proven reliable
- Pull weight - (shooter adjustable) from 3.0-6.5 lbs.
- Consistency - All critical wear surfaces are coated with diamond hard, Black Nitride®, for protection and long service life
- Feel – Brenton triggers are designed and built by hunters for hunters. Uses standard .154 diameter mounting pins
- Will work equally well with standard pins, KNS® pins or JP® pins.
- Drop in and go design, no tuning necessary
- Fits most AR-15 and AR-10 rifles
